

FINANCE ANALYST

Cash Credit is a fast growing non-banking fintech institution that has developed an innovative business model for providing financial services in partnership with Telecom Network Operators. The fintech market is seen as one of the fastest growing financial services at global scale both in mature and emerging countries. Our service is delivered through a unique platform that incorporates the complete lending processes - application management, scoring and collection. Today the company has strong position on the Bulgarian, South African and Philippines markets and ambitious plans for further development both locally and internationally. Following our expansion plans, currently Cash Credit has a need to hire a „Finance analyst”
