QA Specialists

Who we are:

Imperia Mobile is **the biggest mobile development** studio in Bulgaria with 150+ experts and among the largest in South-Eastern Europe. We sketch, design, engineer, build, test and maintain exceptional mobile and web applications for our customers all over the world. We believe that superior applications are the ones without any errors and defects. Do you agree?
That's why we are looking for highly-motivated, energetic, and charismatic

QA SPECIALISTS

Joining Imperia Mobile's ranks secures you a front row seat for the next age of mobile app design. Together with our seasoned native development teams you will hold the power to ensure comprehensive test coverage upon various projects which dynamically change.

We require some skills for the position:

• 1+ year of professional experience as a web/ mobile tester
• Experience with Functionality, Usability, Performance, Sanity and Regression tests
• Knowledge of QA processes
• Preparation and execution of test cases
• Positive attitude and willingness to improve
• Working level of English language
• Motivation and ability to work without additional supervisory
• Strong troubleshooting and analytical skills

Consider as a plus:

• Knowledge of MySQL
• Familiarity with Bug-tracking systems (JIRA, etc.)

What we offer:

• The opportunity to express yourself without any constraints and help deliver the future of mobile applications
• Work with the best in the mobile development industry
• Test apps used by millions of users worldwide
• We offer competitive remuneration, free lunch, hot and cold beverages, fresh fruits throughout the day, as well as various other perks
• We encourage time for self-study and personal growth
• We know how to keep the creative juices flowing with chill zones, interest group activities and a game room for relaxation

If you think we can satisfy your love for debugging, do not hesitate to send us a CV at **polina.andonova@imperiaonline.org.**
