A custom development company, MentorMate is a design and software powerhouse with mature and established practices in Enterprise Web & Mobile Development, Human-Centered Design, Cloud & DevOps. We are looking for .NET Interns ready to take the first step in their professional journey and become .NET Developers.

We know how hard it can be to make a kick-start in your career. Becoming part of our internship program, you will be mentored and work with some of the top .NET experts in Bulgaria. They will provide regular feedback, guidance, and practical assignments during your transition from a newbie to a professional.

As a top engineering employer run by engineers, MentorMate provides challenging careers in a friendly, people-oriented environment. We value our employees and share our success through competitive pay and benefits, advancement opportunities, and flexible working models.

### Being part of our .NET internship program, you will

- Be mentored and coached by some of the highly qualified MentorMate experts
- Level up your skills and knowledge in both back-end (.NET 5, ASP.NET Core) and front-end (Angular, React) technologies
- Meet new challenges and work on individual and group projects using Scrum
- Learn best practices working with company source control and bug tracking system
- Join a culture that emphasizes hard work, leadership, and having fun

### What we are looking for

- Analytical thinking and a little experience with algorithms and data structures
- Basic knowledge of relational database design and implementation
- Basic knowledge of .NET, OOP and web technologies such as HTML5, CSS3 and JavaScript
- Passion for building .Net web applications
- Excellent communication and teamwork skills
- Proactiveness - ask and go beyond what's expected
- Very good spoken and written English

### How to apply

- Send us your CV in English
- After applying, you'll receive an assignment via email. You should build your solution with one of the following programming languages: .NET, Java, C or C++, JavaScript (any framework or library can be used)
- We will expect to receive your solution within 7 days after the application
- If you meet our requirements, we will invite you to an online interview
- The best candidates will receive an offer to join our .NET Internship program

## We Offer

### Career Development

- Professional growth in a global company
- Latest technologies to choose from
- Challenging problems to solve
- Internal technical and soft skills trainings
- Variety of meaningful projects
- Work side-by-side with top engineers
- A career path with regular salary increases
- Knowledge sharing

### Work & Life Balance

- Regular team buildings and initiatives
- Gamification program
- Internal communities of interest such as sports, hiking, etc.
- Diverse working environment
- Employee Referral program with bonuses
- Charity and volunteer activities
- Modern offices with implemented health measures and chill out zones
- MentorBike to use
