

## Database reporting specialist / Jasper reports

DHL is the global market leader in the transport and logistics industry and “The Logistics Company for the world”. DHL commits its expertise in international express, air and ocean freight, road and rail transportation, contract logistics and international mail services to its customers. A global network composed of more than 220 countries and territories and about 300,000 employees’ worldwide offers customers superior service quality and local knowledge to satisfy their supply chain requirements.

Our development team has grown a lot and we are currently looking for a young and motivated person to assist the team and develop in the project. The ideal candidate for this position is a young graduate who has very good knowledge of SQL and passion for reporting.

### **Main activities:**

- Working with iReport to create and generate Jasper reports;
- Creation of sophisticated layouts containing charts, images, subreports, crosstabs and much more;
- Cooperating with business analysts to clarify business requirements and needs.

### **Additional activities:**

- Working closely with the development team to improve the quality of the reports and the layouts;
- Actively researching and studying the development framework with the opportunity to grow.

### **Successful candidates will possess the following skills and experience:**

- Strong SQL skills;
- Interest in reporting and in design;
- Proactivity and motivation;
- Ability to clearly express himself in English;
- Experience with design and/or reporting tools is an advantage;
- Finished/graduated an OOP class is an advantage.

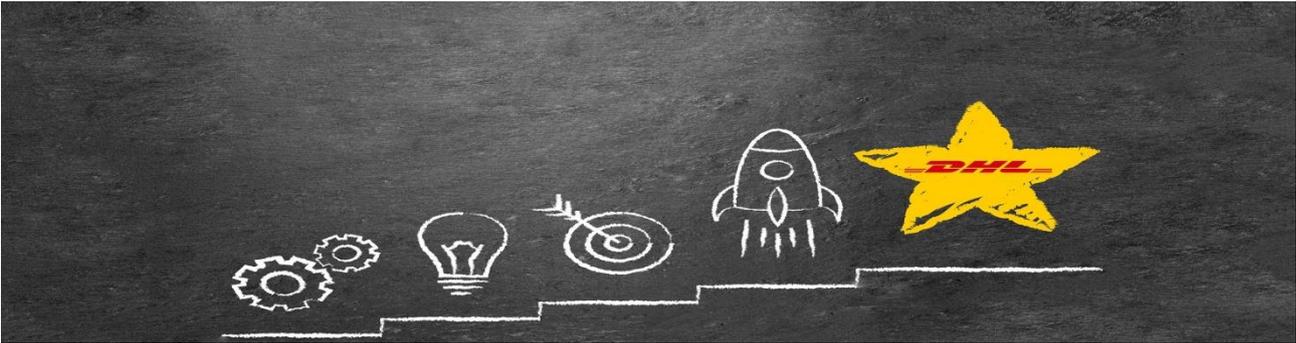

### **What we offer:**

- Competitive remuneration;
- Extensive training about the business and the tools you will be using;
- An extensive benefits package including additional health insurance, life insurance, food vouchers and much more;
- Amazing office environment along with friendly and cooperative colleagues;
- Dynamic working environment with growth opportunities.

We will be happy to meet interested in the project people, in order to discuss what added value the project would have for them.
