

- Want to be part of something new, challenging and exciting?
- Keen on developing new ideas to support digital transformation in industry?
- Aim to constantly develop your skills and competencies in a stimulating and supporting environment with international experience?
- You're or would like to become a Software Developer or IT engineer?

Join our young and growing team as Trainee in our R&D center in Sofia to provide the best service to our customers. Discover multiple industry sectors (Aerospace & Defense, Automotive, Energy, Transportation, High-Tech, Life Science) and develop yourself.

As an international company, Inensia offers a stimulating and supporting working environment with friendly, social, and open-minded people.

At Inensia after in-depth training on enterprise software suites and their development toolkits, you will become PLM Developer and will participate in customization and integration of software in clients' environments.

After 2-3 years of experience, you will reach the level of INENSIA PLM Application Architect and will take the lead of ambitious transformation projects!

Requirements:

- 0-1 years of experience in software development
- Ability to attend the internship on full time schedule
- Advanced in English, both spoken and written
- Sense of responsibility, autonomous, proactive, resourceful and team player

Our Offer:

- Competitive remuneration package and additional company benefits
- "Start-up" approach / end to end involvement / new leadership opportunities
- Continuous training & opportunity for development
- International experience
- Friendly and stimulating work environment

This is a 3-month paid internship program which upon successful completion will be prolonged as full-time or flexible employment.
