

NEW BULGARIAN UNIVERSITY

MA IN CLINICAL SOCIAL WORK

Brief presentation of the program: The understanding of the training team is that social work is a management of exclusion/inclusion of vulnerable groups of people in different social systems. The training in engagement with people and casework is based on the psychodynamic and systemic approaches. The theoretical courses are delivered in the context of continuous clinical work with clients under supervision and the participation in a weekly clinical seminar. The program offers preparatory module for candidates from other educational areas without a bachelor degree in the helping professions.

Qualification:

Specialization: Clinical social work

Qualification: Master degree in Clinical social work

Preparatory module

BEHM102 Dynamic psychology, 30h, 3 ECTS
